Delta Dental helps save you money and makes it easy to protect your smile and keep it healthy.

### Save money

As the nation's largest dental benefits provider, Delta Dental negotiates lower fees with dentists so you pay less for the dental care you need. Most Delta Dental plans cover preventive care at 100%. And with 158,000+ dentists in our network across the country, you will have access to cost-saving dental care no matter where you travel.

### Save time

Our time-saving tools make it easy to find a dentist in your area, estimate the cost of a procedure before you go to the dentist, and manage your dental benefits plan online or over the phone.

### Stay healthy

When families have dental benefits, they are almost twice as likely to get the preventive dental care that they need to stay healthy. With most Delta Dental plans, preventive care, such as exams, cleanings and X-rays, are covered at 100%. Keeping your smile healthy is not just about your appearance — oral health is a critical component of your overall health.
